Parish Council Report

It has been a very strange year but Marhamchurch Pre School continues to thrive. We are currently full with 35 families on our register. We continue to operate 5 days a week from 8:30-3:30 with a highly qualified team of 6 staff and 1 volunteer.

The staff at Marhamchurch Pre School, continue to develop their practice and have completed many online courses and a paediatric first aid course. We have adjusted our practice to Covid 19 to ensure we follow the correct procedures outlined by the government and Department of Education. All staff and our volunteer are tested twice a week and we have strong risk assessments and policies in place for parents to adhere to.

We have been applying for many grants to help us develop our outdoor area. We successfully received a Blanchminster grant and a £200 grant from the Parish Council. We are thrilled with this extra help and will be purchasing a new Mud Kitchen for the children and sand for the large pit we have in our garden. KJ Bromells have kindly donated us some wood and we have a lovely volunteer who will be building us some new raised beds to grow fruit, vegetables and pollinating flowers. The children are very excited and cannot wait.

We continue to have a good reputation and are receiving many enquiries for September 2021. We feel that we will go from strength to strength and continue delivering a very high standard of early year's education to young children.

Nicky Rogers

Pre School Manager
